Something Real

Thomas Dybdahl

Oh yeah, baby
SFP
Like that y'all
I just wanna do something real to you
Like a real brother is supposed to do
Just tell me how you feel, babe, babe
I'll give you something real, babe, babe
I just wanna do something real to you
Like a real brother is supposed to do
Just tell me how you feel, babe, babe
I'll give you something real, babe, babe
Let's not pretend, I promise if we keep it real
Girl, you will discover, I gave you pleasure like no other
It's very spiritual but oh, so physical
Mere words can't tell, you'll have to feel it for yourself
Because it's here right here, my dear
Something that makes you smile again
Something that takes all night and then
I'm goin' to be the one that's still
Here right here, my dear
The physicals only part of it
Give me a chance to show you a deeper love
Give you something real
I just wanna do something real to you
Like a real brother is supposed to do
Just tell me how you feel, babe, babe
I'll give you something real, babe, babe
I just wanna do something real to you
Like a real brother is supposed to do
Just tell me how you feel, babe, babe
I'll give you something real, babe, babe
Let me make this clear, I've been doin' this for years
Now I understand, what a woman needs from her man
Spendin' money on my baby, take a trip downtown and daily
I'ma drive you like Ms. Daisy, ain't no ***** that can fade me
An' baby I'm here, right here, my dear

You don't even have to say a word, your body is callin' and I heard
I just want to make sure, baby, I'm clear

We'll take it slow so you can feel
Every bit of all I that I got to give and it's all for real
I just wanna do something real to you
Like a real brother is supposed to do
Just tell me how you feel, babe, babe
I'll give you something real, babe, babe
I just wanna do something real to you
Like a real brother is supposed to do
Just tell me how you feel, babe, babe
I'll give you something real, babe, babe
Let me come inside, stay with me tonight
I'll take you places only we two can find
I just want to give something you can feel
Because I know there's no one better
I'm just keepin' it real
I just wanna do something real to you
Like a real brother is supposed to do
Just tell me how you feel, babe, babe
I'll give you something real, babe, babe
I just wanna do something real to you
Like a real brother is supposed to do
Just tell me how you feel, babe, babe
I'll give you something real, babe, babe
I just wanna do something real to you
Like a real brother is supposed to do
Just tell me how you feel, babe, babe
I'll give you something real, babe, babe
I just wanna do something real to you
Like a real brother is supposed to do
Just tell me how you feel, babe, babe
I'll give you something real, babe, babe
Tell me how you feel babe
I'll give you something real babe
