Toxic Suicide

Saliva

Take my bottle away and my heart is in your hands
Take my pills away or you'll never understand
Been so close to the edge, I know that I can't walk awayToxic suicide, toxic suicide, toxic suicide
As the world goes black and the sky is falling downSend my pain away in moments I can't face
Send my world away till I can find another place
Been so close to the edge, I know I just can't walk awayToxic suicide, toxic suicide, toxic suicide
As the world goes black and the sky is falling downCut from love and pushed, and shoved
'Til I'm in hell below
I've wrestled rage and turned the page
But the devil runs the showToxic suicide, toxic suicide, toxic suicide
As the world goes black and the sky is falling down
Toxic suicide, toxic suicide, toxic suicide
As the world goes black and the sky is falling down
