

# The World Keeps Turning

[Lisa Ekdahl](#)

The world keeps turning we can't change its course  
What I can't hold by love I won't hold by force  
The world keeps turning beyond the control  
What I can't hold by love I won't hold at all I want my pretty baby  
He says he wants me to  
We wanna be together  
Hope that is something we can do I want my pretty baby  
He says he wants me so bad  
He knows that I got a thing for him  
Hope our thing won't turn out sad The world keeps turning we can't change its course  
What I can't hold by love I won't hold by force  
The world keeps turning beyond the control  
What I can't hold by love I won't hold at all The world keeps turning we can't change its course  
What I can't hold by love I won't hold by force  
The world keeps turning beyond the control  
What I can't hold by love I won't hold at all The world keeps turning, world keeps turning Here come my baby  
running  
Part of me is in his hand  
He doesn't close hard he knows then  
It slips through fingers just like sand He doesn't close his hand he knows then  
It slips through fingers just like sand  
When to give up, when to give more is  
A thing that's hard to understand The world keeps turning we can't change its course  
What I can't hold by love I won't hold by force  
The world keeps turning beyond the control  
What I can't hold by love I won't hold at all The world keeps turning we can't change its course  
What I can't hold by love I won't hold by force  
The world keeps turning beyond the control  
What I can't hold by love I won't hold at all The world keeps turning, world keeps turning  
The world keeps turning, world keeps turning  
World keeps turning, world keeps turning
