Suburban War

[Arcade Fire](#)

Let's go for a drive, see the town tonight
There's nothing to do but I don't mind when I'm with youThis town's so strange they built it to change
And while we sleep we know the streets get rearranged
My old friends, we were so different then
Before your war against the suburbs beginBefore it beganNow the music divides us into tribes
You grew your hair so I grew mine
You said the past won't rest
Until we jump the fence and leave it behindMy old friends, I can remember when
You cut your hair, I never saw you again
Now the cities we live in could be distant stars
And I searched for you in every passing carThe night's so long
Yeah the night's so long
I've been living in the shadows of your song
Living in the shadows of your songIn the suburbs I, I learned to drive
You told me we would never survive,
So grab your mother's keys, we leave tonightBut you started a war that we can't win
We keep erasing all the streets we grew up in
Now the music divides us into tribes
Choose your side, I'll choose my sideAll my old friends they don't know me now
All my old friends are staring through me now
All my old friends they don't know me now
All my old friends they don't know me now
All my old friends, they
