

One Brick

Libby Redman

How does the devil build a stronghold?

One brick at a time

How does the devil build a stronghold?

One brick at a time

How doe the devil build a stronghold?

One brick at a time

Lord, Lord, Lord, Lord don't want no strongholds in my life

Way back in the wilderness Moses sent out spies

They said how do we stand a chance we're grasshoppers in our own eyes

But two of the spies came back and gave a good report

They said we won't give into fear cos we have the Lord

They said we won't give into fear cos we have the Lord

They said sweet looking sin we won't let you in

It's easy to fear but fear's a bad bad thing

How does the devil build a stronghold?

One brick at a time

How does the devil build a stronghold?

One brick at a time

How does the devil build a stronghold?

One brick at a time

Lord Lord Lord Lord don't want no strongholds in my life

Hey Joseph said Potiphar's wife, why don't you come on over?

I'll make you feel so nice

But Joseph wanted to do good, wanted to please the Lord

So he said sweet-looking sin, I won't let you in

You look so very nice but you a bad bad thing

How does the devil build a stronghold?

One brick at a time

How does the devil build a stronghold?

One brick at a time

How does the devil build a stronghold?

One brick at a time

Lord, Lord Lord Lord don't want no strongholds in my life

Shadrach Meshach Abednego were brought to Babylon

They were told to bow down to the idol or they'd be doing wrong

But they said we won't get down on our knees, we won't compromise
We'll stay faithful to the Lord if it costs our very lives
They said sweet-looking sin, we won't let you in
It's easy to give in but it's a bad bad thing

Knock knock knock sins at the door, you better not let it in
It's crouching at the threshold watch out it's a bad bad thing
Knock knock knock sins at the door, you better not let it in
It's waiting at the threshold watch out it's a bad bad thing
Knock knock knock sins at the door, you better not let it in
It's pressing through the threshold be strong don't let it in
