

Inside Out

Cervello

i've been here a wile ,
just try to get out,
cause i can not stand this feeling

i can not deny
that you haven't try
to give me bad taste in my mouth

have to change
find my place
see the path that will lead on

brake this chains
change my face
try to run away from you

i can not belive ,
that i was in need,
of all the things you tried to give me

i was digging deep
had no air to breathe
destroyed the part of me i need

as i faild
lost my place
all your lights of misleading

make you pay
watch you fade
to see you crawl away from me

i wanna grab you by the skin
and make you crawl out of it

a wanna cut your throat and run
when your words hits me like nails

a wanna taste you like the sun

bites me when iam burning

for all the damage you have done,
i feel completely inside out

im starting to see
the ditch full of greed
and now i know your true intentions

brake this chains
change my face
now i run away from you

i wanna grab you by the skin
and make you crawl out of it

a wanna cut your throat and run
when your words hits me like nails

a wanna taste you like the sun
bites me when iam burning

for all the damage you have done,
i feel completely inside out
