Within the Dark Mind

Immortal

Dark nights landscapes and only me
Seas and rivers high, deeps and waterfalls
Massive mountains, powerful mountains, only me
Where bergs and peeks throne, cold beneath the moonThe dark nights horizons and only me
The shunnin' moonlit lights, the paths to forests wild
Massive sky powerful sky and only me
Epic and diabolic swallowin' the gloomAt the works of my gods, I glaze my heart to be
The nature of dark, awake my soul to see
At the works of my gods, I glaze my heart to be
With an evil mind, flamed my heart will beMy quest reverse the time, within' the dark mind
Strength in it I find within' the dark mind[Incomprehensible]The dark mind landscapes and only me
Walls of time benight a world I realised
Massive thoughts, powerful thoughts, still only me
A deepenin' of a shadow, by the dimmenin' of the sunAt the works of my gods, I glaze my heart to be
With an evil mind flamed my heart will beMy quest reverse the time, within' the dark mind
Strength in it I find within' the dark mind
