More More More

Kylie Minogue

Give it, give it up
Just can't get enough, oh
Here am I with my desire
Feel it burnin' just for you
My, oh my, this love divine
Is takin' me to somewhere new
Just slide
(Just slide)
Get your body down, down, down
And glide
(And glide)
I gotta feel you all around
Boy you got me wantin' more, more, more
Give it all up for love babe
You got me sayin' more, more, more
Wind me up, wind me up
You know I want you more, more, more
Gotta give it all up for love babe
Keep me sayin' more, more, more
Baby just fill me up to the top
Till I can take no more, no more
Here am I and deep desire
I got a little spot for you
Ooh, make me sigh with sheer delight
As baby you caress and soothe
So slide
(Just slide)
I wanna feel down, down, down
And glide
(And glide)
You know I need you all around
Boy you got me wantin' more, more, more
Give it all up for love babe
You got me sayin' more, more, more
Wind me up, wind me up
You know I want you more, more, more
Gotta give it all up for love babe
Keep me sayin' more, more, more
Ooh, baby just fill me up to the top

Till I can take no more
Till I can take no more
Ooh, give it up, give it up
I just can't get enough
So give me more, more, more, more, more
Give it up, give it up
I just can't get enough
So give me more, more, more, more, more
Just slide
(Just slide)
Get your body down, down, down
And glide
(And glide)
I gotta feel you all around
Boy you got me wantin' more, more, more
Give it all up for love babe
You got me sayin' more, more, more
Oh ho, just wind me up, wind me up
You know I want you more, more, more
Gotta give it all up for love babe
Keep me sayin' more, more, more
Ooh hoo, baby just fill me up to the top
Till I can take no more
I can take no more, no more, more
Give it up, give it up
I just can't get enough
So give me more, more, more, more, more
Give it up, give it up
I just can't get enough
So give me more, more, more, more, more
Ooh hey hey
Come give me
More, more, more, more, more, more
More, more, more, more, more, more
More, more, more, more, more, more
More, more, more, more, more, more
