

The Light Before We Land

The Delgados

In cases such as these, I'd like a hand
Don't wake me up without a master plan
With black and white instead of color
Don't you understand?
When things that once were beautiful
Are bland And when I feel like I can feel once again
Let me stay awhile
Soak it in awhile
If we can hold on, we can fix what is wrong
Buy a little time for this head of me
Heaven for us In truth there is no better place to be
Than falling out of darkness still to see Without a premonition
Could you tell me where we stand?
I'd hate to lose this light
Before we land And when I feel like I can feel once again
Let me stay awhile
Soak it in awhile
If we can hold on, we can fix what is wrong
Buy a little time for this head of mine
Heaven for us Before we let euphoria
Convince us we are free
Remind us how we used to feel
Before when life was real, ahh, ahh And when I feel like I can feel once again
Let me stay awhile
Soak it in awhile
If we can hold on, we can fix what is wrong
Buy a little time for this head of mine
Heaven for us
