Sound & Color

Alabama Shakes

A new world hangs outside the window
Beautiful and strange
It must be falling away
I must be
Sound and color with me for my mind
And it should show you where to go when I need to speakSound and color
With me in my mind
Sound and color
Try to keep yourself awake
Sound and color
This life ain't like a book
Sound and color
I wanna touch a human being
Sound and color
I loath to go back to sleep
Sound and color
Ain't life just down the street
Sound and color
You wish you're looking all the way
Sound and color
The more the feeling set to notice it
Sound and color
Life is
Sound and color
Love is
Sound and color
Love is
Sound and color
Sound and color
Sound and color
