

# The Kiss

## Hooverphonic

Some say because it's over  
We should be said but that's not true  
'cause death may seem something nasty  
But it belongs to me and you Don't try to avoid your destiny  
Accept this kiss with dignity  
In this embrace you'll find relief  
Get rid of all your grief Some say because it's over we should be...  
...free...
