Soldiers

Out Of Eden

I see you watching me
Yeah, you know I'm on it
See how I'm living
You know I'm too strong
All they throw at me
I'm not fallin' for it
They think I'm alone
They've got it all wrong

Everybody on the left and everybody on the right
Who's not scared to testify (willing to testify)
Gotta let the world know it
That you're not afraid to show it
If you're not afraid to show it
Let me hear you tonight

[Chorus:Repeat x2]
All my people in the place
You're looking good with style and grace
But here's my question, listen clear
Where my soldiers (right here)
Say hey (hey)
If you know you keep it tight
Say hey (hey)
Where my soldiers at (right here)

The world's watching you
What'cha gonna do now
Will you make a move
Will you show and prove
In all that you do
Gotta represent
The life that we've been given
The reason why we're living so

Everybody on the left and everybody on the right
Who's not scared to testify (willing to testify)
Gotta let the world know it
That you're not afraid to show it
If you're not afraid to show it

Let me hear you tonight

[Chorus]

All my people in the place (repeat)

Well, you know there's a reason
We're here to change the world
And you know I'm believing
We can do it but it's up to you
The request of the maker
Of the ocean and the sky so blue
It's a call for some soldiers
So if you're not afraid to take a stand
Then let me see you raise your hand

[Chorus]
