

Baby Bluebird

Fruit Bats

Said you never felt lower
Looking at her own shoulder
Slow motion, slipping away
She's writing songs about leaving something
Sad ones about believing in one thing
and watching it fade away
And if you'd given me most of you
I'd have handed over all of me
But it's in the rearview
My baby
Baby bluebird
Say it's never over
Chipping away at the boulder
Spinning those wheels
Writing songs about coming under
I've fallen in love with the idea of someone
Who is it gonna be
But still when I saw you
My heart it split clear in two
So pretty in the rearview
My baby
Baby bluebird
And if you'd given me most of you
I'd have handed over all of me
But it's in the rearview
My baby
Baby bluebird
My my my my baby
Baby bluebird
My, my my my baby
Baby bluebird
