Like three years ago we was coming
And if niggas can pay for these fucking awards
Then my nigga I don't want 'em
The rap life's just getting awkward

The boss man don't like my conduct
Somebody said I don't drink the product
He told me: "Fuck it, it's next level"
I told him: "Fuck it, let's do it then"
Where's your assistant, give me a pen
You'd have a million if you was in
You'd get a million if you was dem
