## Double Negative

Forget the letter, just sleep sound tonight  
Pull back the covers without a fight  
But as we dance by emergency light  
    I fail to swallow my tongue  
    And I'm still here bleeding  
So pull this switch and see my body twitch  
    Oh, as we dance on this memory  
    A light left blinking on it's own  
    And my blood is flowing  
    Down through this machine  
    In hope and desire  
    In hope I expire  
    Turn off this machine  
'Cuz this is the only thing that's keeping me alive  
    Turn off this machine  
'Cuz this is the only thing that's keeping me alive  
    So pull this switch and see my body twitch  
    Oh, as we dance on this memory  
    Despair has devoured me whole  
    A seed won't grow from this soul  
    This pull won't cure my disease  
    Can't you kill this bleeding heart?  
    Turn off this machine  
'Cuz this is the only thing that's keeping me alive  
    Turn off this machine  
'Cuz this is the only thing that's keeping me alive  
  
Please nurse, my batteries are running low  
Please nurse, oh, oh, I think I'm running low  
    Left here swallowed by this fear  
    That you will always keep me here  
To close your eyes and pray for this to go away  
    'Cuz I'm not angry, tired or sore  
    More of a man than I was before  
    Is this the 'cause I'm looking for?  
        I plead, forgive me  
        'Cuz I'm no martyr  
    Is this the 'cause I'm looking for?  
        I plead, forgive me

'Cuz I'm no martyr  
Is this the 'cause I'm looking for?  
'Cuz I'm not angry, tired or sore  
More of a man than I was before  
Is this the 'cause I'm looking for?  
I plead, forgive me  
'Cuz I'm no martyr  
You're not the 'cause I'm looking for  
I plead, forgive me  
'Cuz I'm no martyr  
And you're not the 'cause I'm looking for
