

Something So Good

Point Of Grace

We've got something so good, we're gonna show you
It makes me happy, always makes me feel free
When I'm in His hands, do you understand?
Not trying to sell you, I'm only trying to tell you
That His love is for real, it's there for you to feel
There's no reason to run from the One who can free you, oh
yeah
We've got something so good, we're gonna show you
Stand in His light you'll see, it's gonna shine through
Open you heart, it's real and waiting for you
We've got something so good
All through the highs and lows, the only thing you need to know
Is that Jesus will be true, he's there to comfort you, yeah
You're not the only one who feels like everything you've done
Is measured in pain, come in from the rain
There's no reason to run from the One who can free you, oh
yeah
We've got something so good, we're gonna show you
Stand in His light you'll see, it's gonna shine through
Open you heart, it's real waiting for you
We've got something so good
A love we can give, a love we can share
A love that is more than money can buy
I believe that He'll set you free, yeah
There's no reason to run from the One who can free you, oh yeah
We've got something so good, we're gonna show you
Stand in His light you'll see, it's gonna shine through
Open you heart, it's real waiting for you
We've got something so good
We've got something so good we're gonna show you
Stand in His light you'll see, it's gonna shine through
Open you heart, it's real waiting for you
We've got something so good
We've got something so good
We've got something so good
We've got something so good
