

# Never Wanted This (feat. Justine Suissa)

[\*\*Armin van Buuren\*\*](#)

Leave me on the outside  
Where I can feel the rain fill off my shoes  
Cover me with kisses  
And I will soon forget what I've been throughRun away forever  
Leave me with no forwarding address  
Find another lover  
And leave me in the motion of undress[Chorus: Repeat 2X]  
I never wanted this  
I never asked you for anything  
I never wanted thisBitter sweet reception  
Take my hand and look into my eyes  
Father of invention  
Only you could make a truth from lies[Chorus:]  
I never wanted this  
I never asked you for anything  
I never wanted this
