

Never Simple With Love

[Andy Ferguson](#)

sing for me every night of the week babe,
cuz' you know, im doing the same for you
think of me and my heart, its for you babe,
ill do anything to comfort you.well im not at bars or parties or with cheap dates,,
i stay away from them like you told me to.---(chorus)
simple aint always simple, and your letters aren't ever enough,
im just missing you like crazy , and im tired of actin' tough,
i desire your attention ,and' i want more than enough,
cuz simple aint ever simple when your dealin' with a thing called love.((instrumental))i wanna take you by
surprise, hold you tight, hold you dear
dance n' laugh n' play n' kiss away all your fears
then its off to work again, but dont fret i wont be long
ill coming right back to you after i play a few more songs...
