## Delphic

Always a new temptation, I am desire  
Always in moderation, if it's a hunger from the heart  
Trying to keep it all out of sight and mind  
Out of sight and mind, trying to work a reason  
Why, I don't recognize myself The less you expect from me, the less you get  
Every test you give me the more I can remedy myself  
I can't keep giving into mistakes I've made  
The mistakes I've made  
I can't keep living life left behind, I don't recognize myself Always a new temptation and no one hears me now  
Always in moderation, if it's a hunger from the heart  
Trying to keep it all out of sight and mind  
Out of sight and mind, trying to work a reason  
Why, I don't recognize myself I don't recognize myself  
Are you now, are you now, are you now?
