Without You

Big Daddy Weave

Would we hear the sound
Of breathing in the dark?
Where would be life?s spark
Without You
And would the birds every sing
Would the wind blow through the trees?
Could I touch the grass so green
Under this big sky so blue?
Without You, without You
And the sun doesn?t shine
And my world stops spinnin? 'round
Without You, without You, yeah
And tell me where else could I ever find
The peace that floods this heart of mine
Without You, without You, yeah
Who could fill the emptiness inside?
Who would ease the pain in my broken heart?
Who would come in and abide?
Promise never to depart
Without You, without You, yeah, yeah
And the sun doesn?t shine
And my world stops spinnin? 'round
Without You, without You, yeah
And tell me where else could I ever find
The peace that floods this heart of mine
Without You, without You, yeah
I can?t live without You, I don?t want to try to
Live one more moment without You, yeah, yeah
I can?t live without You, I don?t want to try to
Live one more moment without You
Without You, without You
Without You, yeah
Without You, without You
Without You, without You
