Eternal Sun

Drudkh

And when we finally get older
I'm coming back for you
And when we finally get older
Ima love ya, hold yaIt's too late to talk about the things we should have done
When we were young and havin' fun
Romancing in the sunSwing like the trees in the cool breeze
From side to side
I saw your soul
When we met eye to eyeWe were the only ones (yea, yea yea)
We were the eternal sunWell I still dream about the love we could have shared
That we left swingin' from that branch
Looks like we missed our chanceA chance we could have taken
We could have been mistaken
It would have left our hearts just breakingWe were the only ones (yea, yea yea)
We were the eternal sun
Oh yea, yea, yea, yeaaAnd we were one
Under the sun
And we were one, yea
WhoaWe were the only ones (yea, yea yea)
We were the eternal, eternal, eternal sun
