

Scarlet Story

[nano](#)

So many reasons we believe
in the good of every heart
No matter what the world
may perceive as "truth"

How do we know which road to take
when temptation leads the way
Follow our virtue
Where it will lead us

As the story goes
Shrouded in mystery
Fate bestowing down upon me strength to carry through
Scarlet, hear me now
This is my vow to you
Light will shed hope on our forsaken souls

Though every sign is pointing me away
the question still remains
Are they visions that you see
in panic and uncertainty?

Another voice is telling me to stay
Have faith inside of you
Don't run from the reality
that stands before you

Give me the wisdom to unravel every tangled thread
running within my every vein
Save me from silence drowning me inside of my head
before the remedy is forever lost again

As the story goes
Fallen in history
Heaven shining down upon the courage to pursue
Scarlet, hear me now
This is my vow to you
Night will soon end on our forsaken souls

The symptoms pounding as I bleed

(Divinity, have mercy on a bended knee)
I take the challenge to defeat now
(Loyalty, I salute thee as I beg and plead)
Rebellion calling, take the lead
(Divinity, have mercy on a bended knee)
I stand my ground, do not retreat now
(Loyalty, I salute thee as I beg and plead)

As the story goes
Shrouded in mystery
Fate bestowing down upon me strength to carry through
Scarlet, hear me now
This is my vow to you
Light will shed hope on our forsaken souls

Scarlet, hear me now
This is my vow to you
Light will shed hope on our forsaken souls
