

# Take My Heart

Patricia Manterola

Please don't say a word  
'Cause I'll fall back to earth  
And I've been so used to  
Being up here in the clouds But somehow it seems  
Like the end of a dream  
I prayed, I'd never wake up  
But I see the dawn breakin' out If this is the last kiss  
Please grant me one last wish  
If you're sayin' goodbye then  
Take my heart with you 'Cause I don't need it  
It won't beat if you're not by my side  
So if you're leaving  
Please take my heart Don't try to explain  
'Cause it won't ease the pain  
And you might as well try to convince me  
The sun will shine after the rain If this is the last kiss  
Please grant me one last wish  
If you're sayin' goodbye then  
Take my heart with you 'Cause I don't need it  
It won't beat if you're not by my side  
So if you're leaving  
Please take my heart Somewhere, someday  
Somehow you'll see  
Your heart is meant for mine  
And you'll bring it back to me If this is the last kiss  
Please grant me one last wish  
If you're sayin' goodbye then  
Take my heart with you 'Cause I don't need it  
It won't beat if you're not by my side  
So if you're leaving  
Please take my heart  
Take my heart, hmm, hmm
