Robin Hood

Ocean Colour Scene

When you're starting to choke
Take some pills with your coke, it's inspirational
When you're life is a mess
Light one more cigarette, it's so logicalWell, it's something in your mother can't abide
But it's something that I freely prescribe
Take yourself for a ride, it never felt so good
As the night that you and I played Robin HoodStealing from the backrooms of our minds
Stealing from a time when we were five
A time I thought we'd left behindWhen you're starting to cry
I'll come and sit by my side and I will love you so
When the nightmares come I will try to be fun
Even though I'm so scared, you knowWell, it's something your mother can't abide
But it's something that I freely prescribe
Take yourselves for a ride, it never felt so good
As the night that you and I played Robin HoodStealing from the backrooms of our minds
Stealing from a time when we were five
A time I thought we'd left behindStealing from the backrooms of our minds
Stealing from a time when we were five
A time I thought we'd left behindWhen you're starting to choke
Take some pills with your coke, it's hysterical
