Overthrown

Jarboe/Philip H. Anselmo

We fall
Through water
Unsung unseen
And days
Thought endless
Lose more
Light and heatSo let the dead bury the dead
I should leaveFor I am
For I am overthrown
Confess to me now
Confess to me nowHalf in sunlight
And half in shade
Words in collision
I bend to your shape
I see the skull beneath the skin
I see it allFor I am
For I am overthrown
Confess to me now
Confess to me nowFor I am
For I am overthrown
Confess to me now
Confess to me now
Confess to me now
