

Security

Vanessa Williams

Sometimes it's hard when I don't know
Where you're going or where you've been
I got a broken heart, surely
If you let me know you care for me
My heart will mend Darling, I can't wait forever
You've got to let me know or let me go
(Let me go)
All I'm saying is you can't keep playing with
A heart that loves you so Security, that's what we need, to keep our love strong
Security, don't make me wait to long
Security, you gotta let me know if this is what you want
Security, don't keep me hanging on I'm sure you know
If you take the time to think about it
You will realize honey, now not too long ago
I used to play around but that's all over
You're my only guy Re-evaluate this situation
Better check out your priorities
You've got to get it straight
No hesitation, if what you want is me Security, that's what we need, to keep our love strong
Security, don't make me wait to long
Security, you gotta let me know if this is what you want
Security, don't keep me hanging on Security, that's what we need, to keep our love strong
Security, don't make me wait to long
Security, you gotta let me know if this is what you want
Security, don't keep me hanging on Darling, I can't wait forever
You've got to let me know or let me go
(Let me go)
All I'm saying is you can't keep playing with
A heart that loves you so
