

# Hanging

Kristian Leontiou

Breathing in, breathing out  
I can sit and watch for hours  
You're my TV, you're my book  
Knowing, learning when I look I'm just hanging biding my time, there's no other by my side  
I go down and down and down the river rages  
And I see you in the mornin' then you're gone I'm waiting around for the evenin' 'til you're home  
If I could change the way this is I'd stay with you  
But if you don't know what I feel now what can I do? Phone is ringing out my name  
The worlds just gonna have to wait  
Just leave me here so I can dream  
I'm more than happy, can't you see? I'm just hanging biding my time, there's no other by my side  
I go down and down and down the river rages  
And I see you in the mornin' then you're gone I'm waiting around for the evenin' 'til you're home  
If I could change the way this is I'd stay with you  
But if you don't know what I feel now, what can I do? What can I do?  
If you don't know what I feel now, yeah, what can I do? I'm just hanging biding my time, there's no other by my  
side  
I go down and down and down the river rages  
And I see you in the mornin' then you're gone I'm waiting around for the evenin' 'til you're home  
If I could change the way this is I'd stay with you  
But if you don't know what I feel now, what can I do? What can I do?  
If you don't know what I feel now, yeah  
Breathing in, breathing out
