Advisory - the following lyrics contain explicit language:

Hang out with me then you stab me in the back
Are you friend or foe?
See me on the streets, you walk right by me
Are you friend or foe? Tell me on the phone that I'm a fucking clone
Are you friend or foe?
Why don't mind your own life and leave me alone
Are you friend or foe? Friend, foe Hang out with me then you stab me in the back
Are you friend or foe?
See me on the streets, you walk right by me
Are you friend or foe? Tell me on the phone that I'm a fucking clone
Are you friend or foe?
Why don't mind your own life and leave me alone
Are you friend or foe? Friend, foe
Are you my friend or foe?
