Chemtrails

Gardens & Villa

I can't believe what we've seen outside
You and me watching the jets go by
Oh ooh oh, oh ooh ohDown by the sea, so many people
Falling in time
You and me watching the sea full of people
Try not to drownSo many people, so many people
Where do they go?
You and me watching the sky for the chemtrails
That's where we can goAll I can take from these skies is fog
And all I can see in this light, a boat sinking
Oh ooh oh, oh ooh ohDown by the sea, swallowed by evil
Already drowned
You and me watching the sea full of people
Already drownedSo many people, so many people
Where do they go?
You and me hit by a cloud like an eagle
Watching the jet planes go byYou and me watching, you and me watching
Chemtrails is where we belong
That's what I mean when we talk in this jet stream
We're climbing a hole in the sky
