

Drag Me to the Grave

Black Veil Brides

Drag me to the grave
Woah woah woah woah woah
Woah woah woah woah woah
Woah woah woah woah woah Feel the blade of a broken promise
Carvin' wounds in a waste of conscience
I alone have the will to fight it
Save my own demise Another victim, another viper
I can feel sins grippin' tighter
To the spirits that we die for
And I will never let it go Risin' up, I'm a fighter
Young and loud with desire
Heroes blessed by the fire
I won't let these demons Drag me to the grave
(Woah woah woah woah woah)
(Woah woah woah woah woah)
Drag me to the grave Death is not from the depths of solace
Takin' life I have made so honest
I'm the world tearin' through this calm
Let's live another night Feel the seasons changin' faster
Feel the reapers of disaster
And the spirits that we die for
And I will never let it go Risin' up, I'm a fighter
Young and loud with desire
Heroes blessed by the fire
Now I live just to conquer All the pain around us creepin' forward
Reachin' out to Drag me to the grave
(Woah woah woah woah woah)
(Woah woah woah woah woah)
Drag me to the grave Risin' up, I'm a fighter
Young and loud with desire
Heroes blessed by the fire
I won't let these demons Risin' up, I'm a fighter
Young and loud with desire
Heroes blessed by the fire
I won't let these demons Drag me to the grave
(Woah woah woah woah woah)
(Woah woah woah woah woah)
Drag me to the grave (Woah woah woah woah woah)
(Woah woah woah woah woah)

Drag me to the grave
