

Flava

Tenelle

Verse 1:

You know I love you
The way you hit my chest
Like a boom boom bass
You light up the room
With your sweet taste
No one can take your place
Ah you smell so good
So misunderstood
But I know one day
My papa will see
The love we share
So effortlessly
Yes i need you
To get me through the night
Wrap your self round my heart
And make it so right
Ooooooh

Chorus:

And no one can compare cause
I can take a taste of the sour d
Whachu wake me up from that blue dream
they say you knock me down like the o.g.
But no one can deny your flava
And I can lose my mind from the silver haze
I can come alive from the northern lights
Come on boy treat me for the cookies tonight
But no one can deny your flava

Verse 2:

You know I love you
And everything you do
Make my mouth so dry
But I don't really mind
Give me red eyes
I'm high up in the sky
Cause you feel so good
So misunderstood

But I know one day
My mama will see
The love you share
So effortlessly
So I blow trees
To get me through the night
Wrap your smoke round my heart
And make it so right
Ooooooh

Chorus:

And no one can compare cause
I can take a taste of the sour d
Whachu wake me up from that blue dream
They say you knock me down like the o.g.
But no one can deny your flava
And I can lose my mind from the silver haze
I can come alive from the northern lights
Come on boy treat me for the cookies tonight
But no one can deny your flava

Bridge:

Roll it roll it
Come let me taste ya
No one no one
Denies your flava
Roll it roll it
Come let me taste ya
No one no one
Denies your flava

Chorus:

And no one can compare cause
I can take a taste of the sour d
Whachu wake me up from that blue dream
They say you knock me down like the o.g.
But no one can deny your flava
And I can lose my mind from the silver haze
I can come alive from the northern lights
Come on boy treat me for the cookies tonight
But no one can deny your flava
