

# Hover

## Trust Company

You take me down  
Further inside of me  
Now I'm fading out  
I can barely see, I hover To see you leave again  
It's over  
And it kills me to watch you descend  
To the end I can't think straight  
Shutting me out, closing me out  
Are you trying, hurting?  
Taking me out, leaving me out  
Keeps me struggling  
You're leaving You take me down  
Further inside of me  
Now I'm fading out  
I can barely see, I hover To see you caving in  
I'm undone  
And to say it's the last time again  
It's the end I can't think straight  
Shutting me out, closing me out  
Are you trying, hurting?  
Taking me out, leaving me out  
Keeps me struggling  
I'm leaving You take me down  
Further inside of me  
Now I'm fading out  
I can barely see, I hover I'm watching you descend  
I'm hovering instead  
I'm watching you descend  
I'm hovering instead You take me down  
Further inside of me  
Now I'm fading out  
I can barely see, I hover  
I hover, I hover, I hover again
