

If You Feel the Way I Do (1991 Remaster)

The Lettermen

If you feel the way I do
And you're all alone
On a lost and lonely avenue
And you need someone We could build a dream together
Just for me and you
If you feel the same way that I do Do you need someone to set you free
From your broken past?
I wish that someone could be me
We could make it last We could build a dream together
Just for me and you
If you feel the same way that I do Girl, you mean that much to me
What more can I say?
Guess, I just don't wanna see
True love slip away So forget those thoughts of yesterday
Still lingering
Tangled dreams get in the way
Of a brand new thing We could build a dream together
Just for me and you
If you feel the same way that I do We could build a dream together
Just for me and you
If you feel the same way that I do
If you feel the same way that I do We could build a dream together
Just for me and you
