

# Trouble

## Over the Rhine

If you came to make some trouble  
Better make it good  
Your sexy cocktail hour stubble  
Is doing what it should Looks may be sweet and subtle  
I think its trouble, honey, I think its good  
If you came to make trouble  
Make me a double honey, I think its good Novices have expectations  
Cause they think they should  
Experts have their revelations  
Like they knew they would What may seem complicated  
Is overstated, downright misunderstood  
Love will not be outdated  
Maybe placated but its got to be good Were so precarious with semantics I think this could be trouble  
I think its trouble honey, I think its good  
If you came to make trouble  
Make me a double honey, I think its good What may seem complicated  
Is overstated, downright misunderstood  
Love will not be outdated  
Maybe placated but its got to be good Were far too serious  
I think we could be  
Such nefarious pyromantics I think this could be trouble  
I think its trouble honey, I think its good  
If you came to make trouble  
Make me a double honey, I think its good I think its good, I think its good, yeah, yeah, yeah  
Yeah, I think its good, yeah, yeah, yeah, yes, I think its good  
Said, I think its good, yeah, I think its good  
Yeah, I think its good
