

# To Make a Long Story Short

**Benny Mardones**

I could use a thousand words to say  
What I've got on my mind  
But what's the use of beating 'round the bush  
Wastin' words, just wastin' timeBoring you with talk  
Ain't what I want  
So I'll try  
To get right to the pointTo make a long story short  
Baby, I love you  
To make a long story short  
Baby, I love youI could find a million words to say  
How your touch makes me feel  
But they wouldn't tell you half as much  
As a kiss would revealBoring you with talk  
Ain't what I want  
So I'll try  
To get right to the pointAnd make a long story short  
Baby, I love you  
To make a long story short  
Baby, I love youAnd boring you with talk  
Ain't what I want  
So I'll try  
To get right to the pointTo make a long story short  
Baby, I love you  
To make a long story short  
Baby, I love youMake a long story short  
'Cause baby, I love you  
To make a long story short  
Baby, I love youMake a long story short  
'Cause baby, I love you  
To make a long story short
