Bring The Light

Beady Eye

I bring the light
You get to see
You bring the love
It's ecstasy
I see no point
In what you're thinking
I'm going out
I'm taking you drinking
I get the car
You're getting up
I'm standing tall
Well, fucking tough
It's just your way
You hear me wrong
I hear you say
You're getting up, getting up
Baby, hold on
Baby, come on
Baby, come on
You're getting up, getting up
Baby, hold on
Baby, come on
Baby, come on
You're getting up, getting up
I bring the light
You get to see
You bring the love
It's ecstasy
I see no point
In what you're thinking
I'm going out
I'm taking you drinking
I'm coming in
You're coming out
I'm coming up
You're coming down
It's just your way
You do me wrong
I hear you say

You're getting up, getting up
Baby, hold on
Baby, come out
Baby, come out
You're getting up, getting up
Baby, hold on
Baby, come on
Baby, come on
You're getting up, getting up
Baby, come on
Baby, come on
Baby, come on
Baby, come on
Come on, come on
Come on, come on
Come on, come on
Come on, come on
Come on, come on
Come on, come on
Come on, come on
Come on, come on
Come on, come on
Well baby, come on
Well baby, come on
Well baby, come on
Well baby, come on
Well baby, come on
Come on, come on
Come on, come on
Come on, come on
Come on, come on
Come on, come on
Come on, come on
Come on, come on
Well baby, come on
Well baby, come on
Well baby, come on
