Love Will Find a Way

Shakra

Walking down this road I've never been before
It's so hard to realize the painful truth
And everything around us looks unreal to me
But now my time has come, please tell me that i'm wrong.
My love will give you comfort, make you strongCHORUS:
I don't wanna live forever
I just wanna stay another day
And lay here near beside you
'Cause you and me belong together
Love is gonna find another way
I'll never be without you
Be without youAll those hopes and plans that grew along our way
Will always be a never-ending dream
And I wish I'd had the time to tell you how i feel
But when the lights go out, your faith is all i have
Forever to your heart i will belongCHORUS:
I don't wanna live forever
I just wanna stay another day
And lay here near beside you
'Cause you and me belong together
Love is gonna find another way
I'll never be without you
Be without youRemember how it used to be when we had just sunny weather
Every little thing seemed possible
But even in the darkest times our hearts will stay together
'Cause love will find a way, yes love will find a wayCHORUS:
I don't wanna live forever
I just wanna stay another day
And lay here near beside you, yeah heah baby!!!
'Cause you and me belong together
Love is gonna find another way
I'll never be without you
Be without youI don't wanna live forever
I just wanna stay another day
And lay here near beside you
Lay here near beside you, yeah yeah!!!
'Cause you and me belong together
Love is gonna find another way
I'll never be without you

Be without you
'Cause love will find a way
