

# Get Out Of This (No Words Just Solo)

## Dinosaur Jr.

Will it come to me ? will it come to me ?  
And I saw you it's the hardest thing for me  
I started shakin' wonderin' where could you be from  
And it figures that the only thing I want is already  
Taken cut him off let's get it done I know I know will it come to me ? will it come to me ?  
And I know you are the one I miss I try to figure how I get out of this I know,  
I know will it come to me will it come to me? And I know about the way you tried to tell me it was sticky  
And settled in their tea so I freaked out blank stared into my heart  
Just like you killed me thinkin' they're still  
The key don't know how to break it to me don't know how to take it To me will it come to me ? will it come to me ?  
me ?  
And I know you are the one I miss I try to figure how I get out of this I know,  
Ow will it come to me ? will it come to me ?
