# Street Royal

## Mecanico

Meet us by the riverside
come along and find out
we'll ride around the site
where past and present lieWe still have time to spend outside
make another turn now
before the winter falls
no clouds will yet collideFlashing lines show the way
helping us go all together
Headlights on, all the wayFlashing lines show the way
helping us go all together
Headlights on, all the way
Let's bike through the night, come on
we'll strive to make it all alright
Feels like the air is lite
gear up, dont stop
bridges reach their maximun height
Through the night, come on
we'll strive to make it all aright
Feels like the air is lite
gear up, dont stop
bridges reach their maximum...High, with a view so wide
one half the size of this city
The last remains of light
will guide us through the wildOne last time, trees rise
colour strikes your eye, I really
hope we'll see the sun
another last time until...
Flashing lines show the way
helping us go all together
Headlights on, all the wayFlashing lines show the way
helping us go all together
Headlights on, all the wayLet's bike through the night, come on
we'll strive to make it all alright
Feels like the air is lite
gear up, dont stop
bridges reach their maximun height
Through the night, come on
we'll strive to make it all aright
Feels like the air is lite

gear up, dont stop
bridges reach their maximum...Bringing us this natural high
Now looking back seems far behind
A million miles away from the time
Along the night, through Street Royal
Across time, through Street RoyalLets bike through the night
come on!
Feels like the air is lite
gear up, dont stop!
Lets bike through the night
come on!
Feels like the air is lite
gear up, dont stop!Let's bike through the night, come on
we'll strive to make it all alright
Feels like the air is lite
gear up, dont stop
bridges reach their maximun height
Through the night, come on
we'll strive to make it all aright
Feels like the air is lite
gear up, dont stop
bridges reach their maximum...
