

Caught In The Moment

Kristian Leontiou

Finally awake
Caught in the moment
Gently suddenly is rushing over me
Found you all alone
I put you from the midnight
As we run away, slide away
Caught in the moment I can take away your tears
Hold on to me
I can take away your fears
Hold on to me
Will go anywhere
Here to anywhere
World with the dream in your eyes
World Searching for the time
We could stay together
want to feel
Grabbing me
Leads to a slow forever
Breathe silently
Walking by the river
Could it be
Could it be
Caught in the moment I can take away your tears
Hold on to me
I can take away your fears
Hold on to me
Will go anywhere
Here to anywhere
World with the dream in your eyes
World Finally awake
Caught in the moment
Gently suddenly is rushing over me Will go anywhere
Here to anywhere
World with the dream in your eyes
World Will go anywhere
Here to anywhere
World with the dream in your eyes
World
