Stay still

Margie Joseph

Tonight is gone
They tell you it's your time
But I won't let them take you from me
And I'll never get far from you
(I'll never get far from you)
We all feel the same
(Can't stop this suffering in my head)
Can't turn this one around

If I could pull you from wreckage
We'd be all fine, oh lord
Don't tell me this is happening
If I could hold you for a second
We'd be all right, oh lord
Don't tell me this is happening

So when does it start getting better
So far from home
The lights are fading out
Just leave us all behind

If I could pull you from wreckage
We'd be all fine, oh lord
Don't tell me this is happening
If I could hold you for a second
We'd be all right, oh lord
Don't tell me this is happening

Ohhhh
I never should have let you go
Until I'll be with you
I'm dying on my own

If I could pull you from wreckage
We'd be all fine, oh lord
Don't tell me this is happening
If I could hold you for a second
We'd be all right, oh lord

Don't tell me this is happening

And I know
I'm not the only one
Dont' tell me this is happening
And I know, I'm not the only one
Don't tell me this is happening
Don't tell me this is happening
