

Square Wave in Unison

Beastie Boys

Made a noise invented a sound
When Brian Wilson used it a hit was found
If only I could have imagined
The square waves running through his head Square wave, people couldn't believe it
Square wave, all the way to Carnegie Hall
Square wave One rod for pitch, electromagnetic fields
Wired up sing sing, hung out with Einstein
For all of his brilliant innovation
Sent off to a Siberian Reservation Square wave, people couldn't believe it
Square wave, all the way to Carnegie Hall
Square wave
