

# Founding Fathers

MDC

Are the founding fathers terrorists or freedom fighters?  
And Paul Revere the famous night rider  
And Andrew Jackson the Indian killer  
A movie of his life could be a nightmare thriller  
Hand out blankets with disease  
Our God is so much better we believe  
Genocidal times, get on your knees  
We are the good guys or so we perceive  
So back then they rebelled against the king  
The U.S. in Iraq is really the same thing  
All the radio hate disc jockey's rage  
Screaming we should blast them back to the Stone Age  
Just like John Wayne running up the hill  
See how many Vietnamese he could kill  
Destroy the village to save it is part of the plan  
Just as letting African's die of AIDS is to steal their land  
"Mommy, was George Washington a terrorist?"  
"No honey, he was a great man, the first president and an important slave owner."  
"Mommy what are doing in Iraq?" "Honey we are gonna' teach these people how to be free."  
We prop up the Saudi's corrupt regime  
Denied people's rights and justice so it seems  
All done for convenience and all that black gold  
Send our boys off to protect our freedoms or so they're told  
"Didn't they lynch black folks in the South  
and set them on fire and hang them from trees just like they did those men in Iraq?"  
"Oh honey, that was so long ago. We don't think about things like that."  
All this hypocrisy makes us sick as hell  
Our murderous government think they're so swell  
Capture people deny them their rights  
Abuse them from Guantanamo to the Golan Heights  
Are the founding fathers terrorists or freedom fighters?  
Take land from the Indians in trade for a little cider  
Remember the only good Indian is one that is dead  
How would it feel for it to be us instead?
