

Summer Burning

Mizz Nina

Just wanna let it go tonight (night, night, night, night)
It's the summer of our life
Dance until the sunlight (light, light, light, light)
It's the summer of our life
Get ready, let's go
So come with me
Let's go party
Let's go party
You've got me burning up I'm feeling good
We rollin' out
Fresh in my outfit
Me and the gals We up in the zone
And nothing can bring us down
This night is on fire
We own this town This moment's so right (right)
We dancing all night (night)
Let's party forever
And do it like
Owh whoa whoa whoa (X2) Just wanna let it go tonight (night, night, night, night)
It's the summer of our life
Dance until the sunlight (light, light, light, light)
It's the summer of our life
Get ready, let's go
So come with me
Let's go party
Let's go party You've got me burning up up up up up (X6)
You've got me burning Boys in the club looking at us
Maybe staring, I ain't caring I don't like no crush
My girls and the music is all that I need
DJ turn it up cuz' I never wanna leave This moment's so right (right)
We dancing all night (night)
Let's party forever
And do it like
Owh whoa whoa whoa (X2) Just wanna let it go tonight (night, night, night, night)
It's the summer of our life
Dance until the sunlight (light, light, light, light)
It's the summer of our life
Get ready, let's go
So come with me

Let's go party
Let's go party You've got me burning up up up up up (X6)
You've got me burning (burning)
