

Secret World

[Markku Mattila](#)

Well, You are not there
My sigh is deep like the ocean
My eyes are burning
There's nothing left for me
Leave me alone with my thoughts
Leave me in my secret world
There's only the pieces of my heart
Turning into dust
Here I live in my secret world
Time gets so long
I need some steam to get me going on
The endless stream of garbage in the TV is making me sad
Leave me alone with my thoughts
Leave me in my secret world
There's only the pieces of my heart
Turning into dust
Here I live in my secret world
