

# Film Me & Finish Me Off

## **Apollo 440**

Throw the weight of your life behind  
Blindly light conversation  
Our very first beauty contest  
On the edge of starvation  
Film me finish me off: film me  
Film me finish me off: finish me off  
Some psychological palaver  
Where you sit and claw  
At the pages of another  
Emotional brochure  
Film me finish me off: film me  
Film me finish me off: finish me off  
Consecrated by perfect lighting  
My blood spread out and danced  
Then you came at me, again, again  
Nasty and advanced  
Film me finish me off: film me  
Film me finish me off: finish me off  
My blood just got in your switches
