

Alien

Cary Brothers

Breaking your heart was never my intention
Playing with parts too fragile in the ending We have become alien
We have become alien
Give me a song that weighs a tonne
We have become alien Stop and we start asking all the questions
Raising alarm
A symptom of the tension
Though we're unarmed we fumble through the trenches
Taking apart all that we invented We have become alien
We have become alien
Give me a song that weighs a tonne
We have become alien We played the part 'til comfort's gone
Now the only language is loss
Oh
Oh
The language of loss
Oh
Oh We have become alien
We have become alien
Give me a song that weighs a tonne
We have become alien
