

# Like a Surgeon

Ciara

Advisory - the following lyrics contain explicit language:

Head back, eyes close, deep breath, let it go  
Bare with me, I'll take good care  
I'm an expert, other girls just can't compare  
I'm highly recommended, don't need a second opinion You'll be all better, baby, once I'm finished  
So be a good patient, be patient  
Stay under my observation  
And holla back in the morning I know you never had a girl quite like me  
Uh me, uh me, uh me  
I take a hot boy, oy and give him cold feet  
Uh feet, uh feet When it comes to love, I'm like a surgeon, I'm a true tactician  
I'ma make your body better when we get in the right position  
I'm like a surgeon, I'ma make your body jump  
Every time my body pumps, uh huh, uh huh I'm like a surgeon until your reflexes leave your knees  
My love's like anesthesia, I'll rock you fast to sleep  
I'm like a surgeon, oh yes, I'm fully qualified  
Lay your head back on that pillow and relax your mind Check, check, calling patient, patient, patient number one  
Make sure that you sign out, sign out, out when you're done  
Make sure you grab a sucker on the way and out the door  
And make your next appointment and come back and get some more Now that you learned, you'll be so glad  
you returned  
Open up your mouth, let me check you out  
My ears will be your stethoscope, we'll fill your vital signs  
Make sure your heart beats like mine I appreciate your recovery time  
But you need a physical one more time  
Head to feet, baby you're just fine  
You're my best patient and you never have to wait in line, no I know you never had a girl quite like C  
Uh C, uh me, uh me, uh me  
I take a hot boy, oy and give him cold feet  
Uh feet, uh feet When it comes to love, I'm like a surgeon, I'm a true tactician  
I'ma make your body better when we get in the right position  
I'm like a surgeon, I'ma make your body jump  
Every time my body pumps, uh huh, uh huh I'm like a surgeon until your reflexes leave your knees

My love's like anesthesia, I'll rock you fast to sleep  
I'm like a surgeon, oh yes, I'm fully qualified  
Lay your head back on that pillow and relax your mind  
Check, check, calling patient, patient, patient number one  
Make sure that you sign out, sign out, out when you're done  
Make sure you grab a sucker on the way and out the door  
And make your next appointment and come back and get some more  
That's it baby, you can count on C  
Give you everything you need  
Girl, that you got ain't got nothing on me  
So call me in case of an emergency
