Across the Avenue

Freedy Johnston

Advisory - the following lyrics contain explicit language:

Though you've gone away
I play your favorite song
Feel the blue and gold
With your dark glasses onI always think I see you
Across the avenue
Walking by where I lost you
It's all I ever doYou just walked away
We'll need tonight, ok?
Going against the light
Run down in front of meI always think I see you
Across the avenue
Someday I'll come to meet you
On the other side
Across the avenueI always think I see you
Across the avenue
Someday I'll come to meet you
On the other side
Across the avenueThough you've gone away
I wear your favorite shirt
Sitting in the sun
By the lottery linesI always think I see you
Across the avenue
Someday I'll come to meet you
On the other side
Across the avenue
