Butcher Blues

Kasabian

Coco believe me, I'm a lonesome man
I wanna get stoned and trip some wires
I wanna get myself undergroundI said that you must believe me
When I say I'm fightin' the dead
Lyin' low across the evening
Can you see the lumps on my head?But I got these voices that just keep singin' outSayin', I just can't stop losing control"
I said that I just can't stop losing control
I just can't stop losing control
I said that I just can't stop losing controlTrench wander pavement
Tryin' to score some love
In the corner of the city
Matching faces with feesI guess that you never been here by the look upon your face
Standing with all the whores and cannibals
In the censored race
But I got these voices that just keep singin' outSayin', I just can't stop losing control"
I said that I just can't stop losing control
I just can't stop losing control
I said that I just can't stop losing controlYou must believe me
When I say I'm fightin' the dead
Lyin' low across the evening
Can you see the lumps on my head?I guess that you never been here by the look upon your face
Standing with all the whores and cannibals
In the censored race
But I got these voices that just keep singin' outSayin', I just can't stop losing control"
I said that I just can't stop losing control
I just can't stop losing control
I said that, I just can't stop losing controlWell I got, I got these voices
